COUNTY LEGISLATION TRACKER (CLT)

Supporting Public Access to County Legislative
Information

INTRODUCTION

The County Legislation Tracker (CLT) is a web-based platform that provides transparent, up-to-date information about the legislative process at the county level in compliance with the Access to Information Act, 2016. The Senate, with support from the Westminster Foundation for Democracy (WFD), developed the central platform that lets Kenyans monitor legislative processes across all counties. With this tool, users can access detailed records of bills, track their progress through various stages, and understand how they might affect their communities, while allowing Senators to keep track of bills across county governments.

KEY FEATURES & BENEFITS

- Real-time updates
- Detailed bill information
- Track specific legislation
- Engagement tools
- Educational resources
- Future petitions

WHY USE CLT?

The CLT supports public understanding of the legislative process by providing accessible, up-to-date information on county bills. It gives Parliament a direct channel through which citizens can follow legislative business in the counties and obtain information that would enable them to engage constructively with their respective county representatives.

HOW TO GET STARTED

The County Legislation Tracker can be accessed at the Parliament of Kenya website slo-countydebills.go.ke, where users may review and monitor the progress of county bills relevant to their areas of interest.

STAY CONNECTED

Updates on the County Legislation Tracker are shared through the official communication channels of the Senate Liaison Office (SLO). Members of the public are encouraged to give feedback on the platform to the SLO.
